Aquamini

Multipure's Aquamini provides powerful filtration in a compact size. It utilizes Multipure's industryleading solid carbon block filter to reduce the presence of contaminants that can negatively affect the taste, odor, and healthfulness of your water, and its small countertop footprint makes it the perfect portable filtration solution for travelers, vacationers, and students. The Aquamini features a stainless steel housing and is designed for easy installation. The Aquamini is NSFcertified to treat contaminants of Aesthetic Concern (Standard 42), contaminants of Health Concern (Standard 53) and Emerging Compounds (Standard 401).

Benefits & Features

- Capacity: 250 gallons (6 months of regular use)
- Connects directly to the faucet with a Preorder replacement filters for \$45! dual-hose diverter valve
- Perfect for vacations, business trips, hotel rooms, college dorms, and more!

Lifetime

Filter life will vary in proportion to the amount of water used and the level of impurities in the water being processed. Claims of capacity are not applicable to contaminants reduced by mechanical filtration because of broad variations in the quality and quantity of physical matter in your drinking water. Your Multipure filter will clog, protecting you from these contaminants, and your flow rate diminishes. For contaminants reduced by adsorption, filter life/capacity is 250 gallons. It is recommended that the filter be replaced when the first of the following occurs: (a) 6 months have passed, (b) the unit's rated capacity is reached, (c) the flow rate diminishes, (d) the filter becomes saturated with bad tastes and odors.
